- 4 Usage of the three channels
- 5 Conclusion and further research

# Division of Entrepreneurship

## Our paper is based on the following prior work:

- *theoretical considerations:*  
division of entrepreneurship (in cooperations)

References: Brunner and Voigt (2007), Fehl et al. (2007), Brunner (2006)

## Our paper is based on the following prior work:

- *theoretical considerations:*  
division of entrepreneurship (in cooperations)
- *methodology:*  
theory building by the means of case study  
research

References: Brunner and Voigt (2007), Fehl et al. (2007), Brunner (2006)

## Our paper is based on the following prior work:

- *theoretical considerations:*  
division of entrepreneurship (in cooperations)
- *methodology:*  
theory building by the means of case study  
research
- *results:*  
the processes of communication depend on the  
underlying processes of innovation

References: Brunner and Voigt (2007), Fehl et al. (2007), Brunner (2006)

## Channel 1: direct observation and market research

## Channel 2: monitoring exchange processes

## Channel 3: direct communication

## Hypothesis (1)

*The more static the particular aspect of the environment, the more channel 2 will be employed.*

## Hypothesis (1)

*The more static the particular aspect of the environment, the more channel 2 will be employed.*

## Hypothesis (2)

*The more dynamic and turbulent the particular part of the environment, the more the entity concerned has to revert to channel 1 or channel 3.*

### Hypothesis (1)

*The more static the particular aspect of the environment, the more channel 2 will be employed.*

### Hypothesis (2)

*The more dynamic and turbulent the particular part of the environment, the more the entity concerned has to revert to channel 1 or channel 3.*

### Hypothesis (3)

*The more the environment changes within a certain period of time, the more a direct communication (channel 3) between the players becomes necessary.*

				Channels			
				I	II	III	
$C$	$\uparrow$	$E_u$	$\uparrow$	1			
			$\downarrow$	2			
		$E_d$	$\uparrow$	3			
			$\downarrow$	4			
	$\downarrow$	$E_u$	$\uparrow$	5			
			$\downarrow$	6			
		$E_d$	$\uparrow$	7			
			$\downarrow$	8			

				Channels			
				I	II	III	
$C$	$\uparrow$	$E_u$	$\uparrow$	1		+	++
			$\downarrow$	2	++		+
		$E_d$	$\uparrow$	3	++		+
			$\downarrow$	4	+	+	+
	$\downarrow$	$E_u$	$\uparrow$	5	+	+	+
			$\downarrow$	6		++	
		$E_d$	$\uparrow$	7		+	++
			$\downarrow$	8		++	+
